INNOVATIVE
HVAC/R SOLUTIONS

TECHNICAL TRAINING PROGRAM

ISO 9001:2015

Module 2

INSTALLATION AND OPERATION PRACTICES

Review and cover best practices – "Installation and Practical Operations."

COMPLETE ALL 4 MODULES

You will earn an Authorized Technician Certification, granting you access to incentives that will help you provide better service to your customers.

- ✓ You will be qualified to process Invotech compressor warranties.
- ✓ You will be authorized to replace an Invotech compressor without a prior warranty claim.
- ✓ You will receive promotional discounts through your authorized Invotech distributor.
- ✓ You will qualify for upcoming promotional and loyalty programs directly with Invotech México.

• Loyalty Program

- Advertising, sales, promotions, and incentive programs.
- National Referral Program with Invotech México. You will be listed as a technical reference on our website.
- You will have direct access to our software and engineering department.

OBJECTIVES

- Scroll compressor concept applied to refrigeration and air conditioning systems.
- Thermodynamic aspects.
- Typical system protection elements applied in the refrigeration cycle.
- Brief description of piping arrangements and designs.
- Typical electrical connections for scroll compressors.
- Evacuation procedures.
- Refrigerant charging.
- Tandem and parallel systems.

TOPICS

These are the other modules of the INVOTECH Technical Training Program:

Module 1

Review the concept of scroll compressors, INVOTECH technologies, and an introduction to the compressor line and applications.

Module 3

Explore the best tools and concepts for executing – "Troubleshooting and Field Failure Diagnosis."

Module 4

Cover warranty terms and conditions, warranty registration, TEARDOWN process, and laboratory testing.

THIS TRAINING WILL BE CONDUCTED ONLINE WITH AN ESTIMATED DURATION OF 75 MINUTES

10222 Bent Oak Dr., Houston, TX 77040
